

Schedule Change for Monday 5

Canceled The talk by Gunasekar Suriya, *Characterizing optimization bias in terms of optimization geometry* in the session Mon.2 H 0104 “The Interface of Generalization and Optimization in Machine Learning (Part I)”, is canceled.

Moved The talk by Ewa Bednarczuk, *On Lipschitzness of projections onto convex sets given by systems of nonlinear inequalities and equations under relaxed constant rank condition*, is now scheduled at 16:00 in the session Wed.3 H 3025 “Algorithms for Large-Scale Convex and Nonsmooth Optimization (Part II)”. Previously it was in session Mon.2 H 1028.
